- **Tools:** Git, GitHub, Jira, Trello, Slack, Postman

Professional Experience

Laravel Developer — Mobrilz Private Limited **09 February 2026 – Present**

- Developing and maintaining web applications using Laravel, Livewire, and related technologies.
- Building and managing admin functionality using Filament Admin Panel.
- Working with MySQL and MongoDB databases across different projects.
- Deploying and maintaining applications using AWS, Plesk, and hosting control panels.
- Developing RESTful APIs and integrating backend services with web applications.
- Working with third-party services, payment gateways, real-time features, and notification systems.

PHP Laravel Developer — Webzent Technologies **Aug 2025 – 05 Dec 2025**

- Developed and maintained web applications using Laravel and MySQL.
- Implemented membership and event management systems with secure payment workflows.
- Collaborated with frontend developers to deliver scalable, high-performance solutions.

PHP Laravel Developer — Fluper Limited **Mar 2023 – May 2025**

- Developed RESTful APIs for mobile and web platforms.
- Integrated third-party APIs and services into Laravel applications.
- Handled API authentication using JWT and Sanctum.
- Improved website performance by 20% through database query optimization.
- Collaborated on an e-commerce module that contributed to a 15% increase in customer registrations.
- Awarded Employee of the Month twice for exceptional performance.

Key Projects

Travel Agency – Travel Booking Platform *Laravel, Livewire, Filament, MySQL*

- Travel website where users can browse and book travel packages.
- Developed backend functionality using Laravel and Livewire and managed the admin panel using Filament.
- Deployed and maintained the application using a hosting control panel.

- Project URL: kelioniukryptis.lt

Koremean – Patient Therapy Management *Laravel, Livewire, Filament, MySQL*

- Patient therapy management system with administrative functionality and backend modules for managing patients and therapy-related information.
- Worked with MySQL and deployed the application through Plesk.

Ma3 LLC – Taxi Booking Platform *Node.js, Next.js, MongoDB, AWS*

- Uber-style taxi booking platform where users can book a car.
- Developed backend APIs and server-side functionality using Node.js and worked on admin functionality using Next.js.
- Implemented MongoDB database functionality and deployed services on AWS.

Winnipeg Healing Connection *Laravel, MySQL*

- Membership-based event management platform where users can purchase memberships, create events, and manage ticket sales.

Negate *Laravel, MySQL*

- Social media platform allowing users to post thoughts, chat, and manage profiles.

Afiato *Laravel, MySQL, Sanctum, Stripe, Firebase*

- E-commerce platform supporting product browsing, cart management, checkout, payments, and push notifications.

XC VPN *Laravel, MySQL, Firebase*

- Built RESTful APIs enabling secure third-party service connections to VPN infrastructure.

Resource Tracking *Laravel, PostgreSQL*

- Location-based attendance system using geolocation verification, time logs, location history, and automated punch-in/punch-out logic.

Haeyo Dating *Laravel, MySQL, PayPal, Firebase*

- Dating application with secure profiles, real-time messaging, geolocation matching, and premium subscriptions.

Education

- **MCA** – Dr. A.P.J. Abdul Kalam Technical University (2018) — 1st Division
- **BCA** – Chaudhary Charan Singh University (2016) — 1st Division
- **12th Grade** – Sant Vivekananda Inter College, Meerut (2013)
- **10th Grade** – Sant Vivekananda Inter College, Meerut (2011)

Achievements & Training

- Two-time Employee of the Month award at Fluper Limited.
- One-time Employee of the Month award at Mobrilz
- Completed Excel import/export functionality in 3 hours for a live project.
- 6 Months Industrial Training at CHW Forge, Ghaziabad.
